New Location, Same Personalized Care: Vista Oncology Relocates Its Shelton Clinic

July 30, 2024

Local oncology practice moves its clinic to continue providing enhanced cancer care to the Shelton community.

SHELTON, Wa., July 30, 2024 – Vista Oncology, a partner practice of American Oncology Network (AON) (OTCQX: AONC), has relocated its clinic in Shelton to 939 Mountain View Drive, Suite 100. The new Shelton clinic is located less than a mile away from its original location and is now open to new and current patients.

Board-certified medical oncologists, Ahmad Fora, MD and Linli Xuan, MD are the primary physicians at Vista Oncology's Shelton clinic, and they are joined by the practice's experienced clinical team. The clinic offers three private exam rooms that provide dedicated space for patient-physician conversations and 10 infusion chairs for patients receiving certain therapies as part of their treatment plans. The site is also equipped with an onsite laboratory for immediate blood draws and other required work.

"While our clinic has a new address, our standards of patient care have not changed," said Dr. Xuan. "The practice holds itself to a high standard of continuously providing exceptional care and services to our patients in a compassionate and holistic manner that is central to our patient-first mindset. This is the standard in all of Vista Oncology's three clinic locations. We appreciate our patients' continued trust and look forward to serving them at our new address in Shelton."

Vista Oncology has been delivering care to patients living in Shelton, Olympia, and the surrounding area for many years. The practice ensures patients receive personalized care and treatment plans that are designed exclusively for their unique needs. As a community-based practice, Vista Oncology provides affordable care in a comfortable environment while offering high-quality, state-of-the-art treatment in convenient locations.

The practice is a partner of American Oncology Network, one of the nation's fastest-growing community-based oncology networks. Through this partnership, Vista Oncology makes additional patient care and services available such as access to the in-house specialty pharmacy with home delivery of certain medications among other benefits.

"We cannot wait to welcome our patients to the new space, where we will continue to prioritize their health and well-being," said Dr. Xuan. "The relocation will allow us to expand patient services and therapeutics, while also providing a larger space for additional staff to deliver one-on-one care."

About American Oncology Network
American Oncology Network (AON) (OTCQX: AONC) is an alliance of physicians and seasoned healthcare leaders partnering to ensure the long-term success and viability of community oncology and other specialties. Founded in 2018, AON's rapidly expanding network represents more than 240 providers practicing across 21 states. AON pioneers innovative healthcare solutions through its physician-led model, fostering value-based care that improves patient outcomes while reducing costs and expanding access to quality care. AON equips its network physicians with the tools they need to thrive independently while providing comprehensive support, integrated revenue-diversifying ancillary services, and practice management expertise, enabling physicians to focus on what matters most – providing the highest standard of care for every patient. AON is committed to promoting health equity by addressing disparities in cancer care and ensuring that all patients have access to the care they need to achieve optimal health outcomes. With a focus on innovation and collaboration, AON is shaping the future of community oncology. For more information, please visit AONcology.com or follow us on LinkedIn, Facebook, X (formerly Twitter) and YouTube.

About Vista Oncology
